

The Pharox III is a dimmable, highly efficient, warm white LED light bulb. With a 6 Watt power consumption, it delivers a thermally stabilized output of approx 300 lm, replacing up to 60 W incandescent lamps or up to 11 Watt CFL's.

## Pharox-III: Dimmable 6 Watt LED bulb

### FEATURES

#### Replaces Incandescent Lamp

Warm White Light - CCT 3000  
Excellent Color Rendering Quality - CRI 90  
Appearance of Standard Bulb  
Instant On  
E26, E27 & B22 Base

#### User Friendly

Light without Flicker - Giving Visual Comfort  
Low operating Temperature - Compared to other LED Bulbs  
No Ultraviolet Radiation

#### Saves Costs and CO<sub>2</sub> Emissions

6 Watt Power - Can Replace up to 60 W Incandescent  
Long Lifetime - 50,000 Hours

#### Environment Friendly

No Mercury  
Rohs Compliant

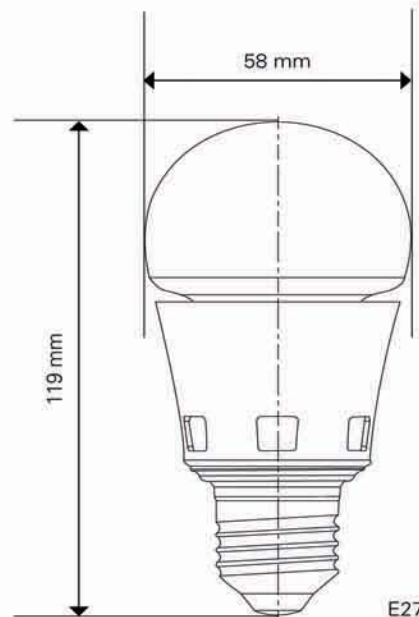

### SPECIFICATIONS

Retrofit LED Light Bulb  
Power Consumption

Lifetime

E26, E27 & B22 Base  
6 Watt Dimmable  
300 lumens  
3,000 Kelvin  
90 CRI  
50,000 hours

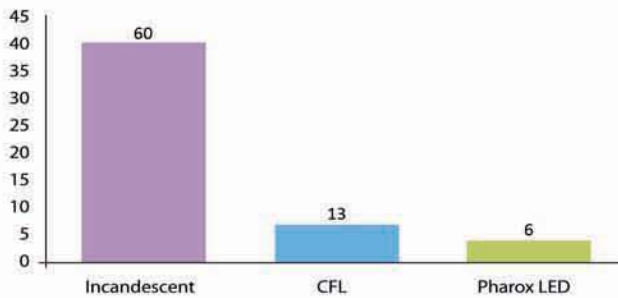

#### Mechanical Dimensions

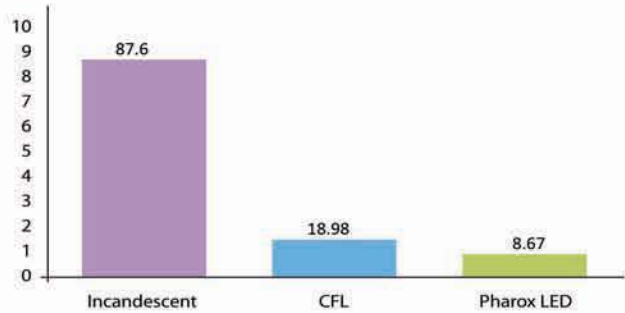

All data tolerances in this specifications are + or - 10%

## WHAT'S THE DIFFERENCE?

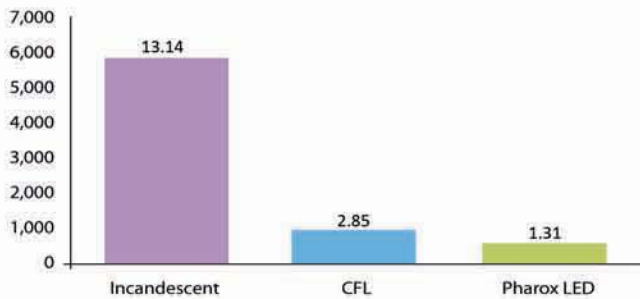

**Total power consumption (Watt)\***

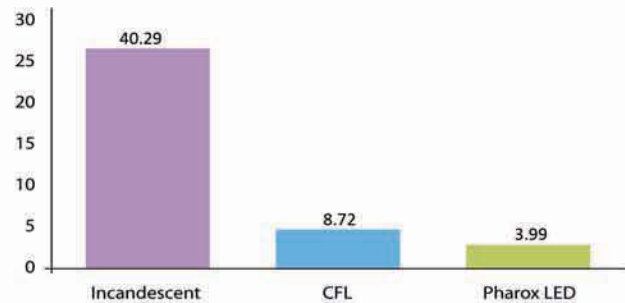

**Total use of energy per year (kWh)\***

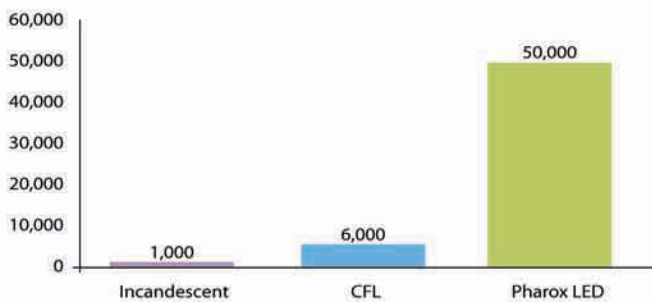

**Cost of energy use (\$)\***

**Total carbon emissions per year (kg)\***

**Estimated lifetime (hours)**

\*Based on energy use of 4 hours/day

\*Energy rates are based on average California residential utility rates
